Index to Journal of Applied Mechanics

Volume 23, 1956

The JOURNAL OF APPLIED MECHANICS includes papers contributed to the Transactions of the ASME by the Applied Mechanics Division of the ASME. The JOURNAL OF APPLIED MECHANICS for 1956 was issued quarterly in March, June, September, and December.
(AC) denotes author's closure; (BR) Book reviews; (D) discussion of a paper.

JOURNAL OF APPLIED MECHANICS

March	1–164
June	165–328
September	329–492
December	493–656

A

ABBASSI, M. M.
Mathematical analysis of bow girders of any shape ... 522

ABRAMSON, H. N.
Some solutions of the Timoshenko beam equations (D) ... 321

ACCELEROMETERS
Effect of spring mass on contact-accelerometer responses ... 385

ADLER, ALFRED A.
Bending vibrations of variable section beams ... 103

AERODYNAMICS
Aerodynamics—Selected topics in the light of their historical development (BR) ... 163
Molecular flow of gases (BR) ... 656
On the wake energy of moving cascades ... 262

ALVERSON, R. C.
Impact with finite acceleration time of elastic and elastic-plastic beams ... 411

ANALYSIS. *See* MATHEMATICS

APPLIED MECHANICS
Selected papers on engineering mechanics (BR) ... 492

ARNOLD, F. R.
Steady-state behavior of systems provided with nonlinear dynamic vibration absorbers (AC) ... 326

ARONOFSKY, J. S.
Unsteady radial flow of gas through porous media—variable viscosity and compressibility ... 128

ATALLA, M. M.
Transient temperature rise in a semi-infinite solid due to a uniform disk source ... 313

ATKINSON, C. P.
Electronic analog computer solutions of nonlinear vibratory systems of two degrees of freedom ... 629

ATSUMI, A.
On the stresses in a strip under tension containing two equal circular holes placed longitudinally ... 555

AUTOMATIC CONTROL. *See* SERVOMECHANISMS

B

BACLIG, E. S.
Asymmetrical bending of a cylindrically aeolotropic tapered disk ... 11

BARON, M. L.
Circular-symmetric vibrations of infinitely long cylindrical shells with equidistant stiffeners ... 316

BARRIAGE, J. M.
Further work on the general three-dimensional photoelastic problem (D) ... 134
Stress distribution in square plates with hydrostatically loaded central circular holes (AC) ... 326

BARS. *See also* BEAMS, NOTCHED BARS
Elastic-plastic stress distribution within a wide curved bar subjected to pure bending (D) ... 158

BART, R.
Effects of boundary conditions and initial out-of-roundness on the strength of thin-walled cylinders subject to external hydrostatic pressure ... 351

BEAMS. *See also* COLUMNS, STRUCTURES
Bending and torsion of circular cylinder cantilever beams of cylindrically aeolotropic material ... 185
Bending vibrations of variable section beams ... 103
Deflection of a beam referred to any set of rectangular centroidal axes ... 464
Effect of hub radius on the vibrations of a uniform bar ... 287
Effect of shear on the plastic bending of beams ... 509
Experimental investigation of beam stresses produced by oblique impact of a steel sphere ... 606
Impact and finite acceleration time of elastic and elastic-plastic beams ... 411
Impulsive loading of elastic-plastic beams ... 515
Kinematic phenomena observed during the oblique impact of a sphere on a beam ... 612
Mathematical analysis of bow girders of any shape ... 522
Method for determining the flexural effects of statically loaded beams on multiple elastic supports ... 503
Nonlinear bending of thin circular rods ... 7
Note on the boundary conditions for bending experiments with bars and plates ... 646
On the nonlinear differential equation for beam deflection (D) ... 144
On the stresses and deflections of rectangular beams ... 339
Plastic deformation of semi-infinite beams subject to transverse impact loading at the free end ... 239
Prediction of creep-deflection and stress distribution in beams from creep in tension (D) ... 133

BEARINGS
The sector-shaped pad ... 584
Some dynamic properties of oil-film journal bearings with reference to the unbalance vibration of rotors ... 302
Tapered-land thrust bearing ... 581

BECKER, HERBERT
Load distribution at the intersection of several coaxial axisymmetric shells (AC) ... 148
Torsional buckling of moderate-length cylinders ... 647

BENTON, G. S.
Effect of the earth's rotation on laminar flow in pipes ... 123

BIJLAARD, P. P.
Buckling of sandwich cylinders under combined compression, torsion, and bending loads (D) ... 157
Theory of plastic buckling of plates and application to simply supported plates subjected to bending or eccentric compression in their plane ... 27

BIKERMAN, J. J.
Frictional vibrations (D) ... 133

BIOT, M. A.
Aerodynamic interference of cascade blades in synchronized oscillation (D) ... 652
General solutions of the equations of elasticity and consolidation for a porous material ... 91

BISHOP, R. E. D.
Modes of vibration of a certain system having a number of equal frequencies ... 379

BLADES. *See* GAS TURBINES

BLAND, D. R.
On the determination of a viscoelastic model for stress analysis of plastics ... 416

BLAST. *See* WAVE MECHANICS

BLOK, H.
Frictional vibrations (D) ... 134

BLOWERS
Turboblowers (BR) ... 161

BOLEY, B. A.
On the stresses and deflections of rectangular beams ... 339

BOLTED JOINTS
Analysis of short thin axisymmetrical shells under axisymmetrical edge loading ... 68, (D) 489

BOOK REVIEWS
Aerodynamics—Selected topics in the light of their historical development ... 163
Boundary layer theory ... 162
Compact heat exchangers ... 655
Design of piping systems ... 492
Gas turbine principles and practice ... 161
High-temperature technology ... 490
Higher transcendental functions, vol. 3 ... 163
Introduction to plasticity ... 491
Introduction to the theory of aeroelasticity ... 162
Introduction to theoretical mechanics ... 161
Mathematical structure of the theories of viscoelasticity ... 163
Mathieusche Funktionen und Sphäroidfunktionen ... 491
Methods of mathematical physics ... 656
Molecular flow of gases ... 656
Probleme der Plastizitätstheorie ... 490
Résistance des matériaux: théorique et expérimentale, vol. 1 ... 163
Selected papers on engineering mechanics ... 492
Spheroidal wave functions including tables of separation constants and coefficients ... 492
Surveys in mechanics: the G. I. Taylor 70th anniversary volume ... 655
Thermal power from nuclear reactors ... 491
Turboblowers ... 161

BORN, J. S.
Analysis of short thin axisymmetrical shells under axisymmetrical edge loading ... 68, 489

BOUNDARY LAYER. *See also* FLOW OF FLUIDS
Boundary layer theory (BR) ... 162

BOYCE, W. E.
Effect of hub radius on the vibrations of a uniform bar ... 287

BRAKES
Frictional vibrations (D) ... 133

BRAND, R. S.
Inertia forces in lubrication films (AC) ... 148

BROCK, J. S.
Mean stress around a small opening of any shape in a uniformly loaded plate ... 314

BROOKS, G. W.
Vibrations of a helicopter rotor-fuselage system induced by the main rotor blades in flight (D) ... 160

BUCKLING. *See also* COLUMNS, METAL CREEP
Axisymmetrical buckling of circular cones under axial compression ... 625
Bauschinger effect on columns ... 479
Buckling of rectangular plates uniformly compressed in two perpendicular directions with one free edge and opposite edge elastically restrained ... 359
Buckling of sandwich cylinders under combined compression, torsion, and bending loads (D) ... 157

BUCKLING (*continued*)
Buckling of simply supported plates tapered in planform ... 207
Effect of an acoustic medium on the dynamic buckling of plates ... 201
Effect of imperfections on buckling of thin cylinders under external pressure .. 569
Method of stepwise integration in problems of impact buckling ... 291
New numerical results of the theory of buckling of sandwich cylinders ... 476
On the carrying capacity of redundant structures ... 403
Pretwisted beams and columns ... 165
Theoretical determination of rigidity properties of orthogonally stiffened plates ... 15, (D) 487
Theory of plastic buckling of plates and application to simply supported plates subjected to bending or eccentric compression in their plane ... 27
Torsional buckling of moderate-length cylinders ... 647

C

CABLES
Some effects of vortex formation in the wake of a suspended cylindrical cable ... 649

CANDEE, ALLAN H.
Acceleration in mechanisms (D) ... 138

CARLSON, R. L.
Time-dependent tangent modulus applied to column creep buckling ... 390

CARRIER, G. F.
On the torsional oscillations of a solid sphere in a viscous fluid ... 601

CASCADES. *See* AERODYNAMICS

CAST IRON
Fracture of inoculated iron under biaxial stresses (D) ... 149

CHANG, C. M.
Critical thickness of surface film in boundary lubrication ... 458

CHANG, CHIEH-CHIEN
Aerodynamic interference of cascade blades in synchronized oscillation (AC). 652

CHU, HU-NAN
Influence of large amplitudes on free flexural vibrations of rectangular elastic plates ... 532

CHU, WEN-HWA
Aerodynamic interference of cascade blades in synchronized oscillation (AC). 652

CLARK, R. A.
On axially symmetric bending of nearly cylindrical shells of revolution ... 59

COLE, J. A.
Inertia forces in lubrication films (D) ... 148

COLUMNS. *See also* STRUCTURES
Bauschinger effect on columns ... 479
Bending creep and its application to columns ... 35, (D) 489
Creep stresses and deflections of columns .. 214
Method of stepwise integration in problems of impact buckling ... 291
Time-dependent tangent modulus applied to column creep buckling ... 390

COMPRESSORS
Aerodynamic interference of cascade blades in synchronized oscillation (D) .. 652

COMPUTERS. *See* ELECTRONIC ANALOGY

CONES
Axisymmetrical buckling of circular cones under axial compression ... 625

CONROY, M. F.
Plastic deformation of semi-infinite beams subject to transverse impact loading at the free end ... 239

CONSOLIDATION. *See* SOIL MECHANICS

CONWAY, H. D.
Asymmetrical bending of a cylindrically aeolotropic tapered disk ... 11
Nonlinear bending of thin circular rods ... 7

CORNET, I.
Fracture of inoculated iron under biaxial stresses (AC) ... 150

COTTER, B. A.
Impulsive loading of elastic-plastic beams. 515

CRACKS. *See* STRESSES AND STRAINS

CRANCH, E. T.
Bending vibrations of variable section beams ... 103

CRANDALL, S. H.
Matrix solution for the vibration mode of nonuniform disks (D) ... 481

CREEP OF MATERIALS
Analysis of creep in rotating disks based on the Tresca criterion and associated flow rule ... 231
Creep stresses and deflections of columns .. 214
Prediction of creep-deflection and stress distribution in beams from creep in tension (D) ... 133

CUNNINGHAM, D. M.
Experimental investigation of beam stresses produced by oblique impact of a steel sphere ... 606
Kinematic phenomena observed during the oblique impact of a sphere on a beam ... 612

CYLINDERS
Buckling of sandwich cylinders under combined compression, torsion, and bending loads (D) ... 157
Effect of imperfections on buckling of thin cylinders under external pressure ... 569
Effects of boundary conditions and initial out-of-roundness on the strength of thin-walled cylinders subject to external hydrostatic pressure ... 351
New numerical results of the theory of buckling of sandwich cylinders ... 476
Three-dimensional and shell-theory analysis of axially symmetric motions of cylinders ... 563
Torsional buckling of moderate-length cylinders ... 647

D

DABROWSKI, N. J.
Steady-state behavior of systems provided with nonlinear dynamic vibration absorbers (D) ... 326

DAMPING. *See* VIBRATION

DAVIS, E. A.
Combined stress tests in plasticity (D) ... 650
Combined tension-torsion tests with fixed principal directions (AC) ... 149

DEFORMATION. *See also* CREEP OF MATERIALS, PLASTICITY
Accuracy of Donnell's equations (D) ... 154
Displacements in an elastic-plastic cylindrical shell ... 73, (D) 480
Influence of blast characteristics on the final deformation of circular cylindrical shells ... 617
Pattern of plastic deformation in a deeply notched bar with semicircular roots ... 56

DE JONGE, A. E. R.
Acceleration in mechanisms (D) ... 138
Kinematic notation for lower-pair mechanisms based on matrices (D) ... 151

DENAVIT, J.
Kinematic notation for lower-pair mechanisms based on matrices (AC) ... 153

DERSIEWICZ, H.
Flexural vibrations of rectangular plates .. 430
Symmetric flexural vibrations of a clamped circular disk ... 319

DESIGN DATA AND METHODS
Biezeno pressure vessel heads ... 642
Computation of roll force and torque in cold-rolling by modern theory ... 307
Deflection of a beam referred to any set of rectangular centroidal axes ... 464
Improved nomogram for the ratios of octahedral to maximum shearing stresses .. 312
Rational analysis of heat-exchanger tube-sheet stresses ... 468

DIFFUSION. *See* FLOW OF FLUIDS.

DIMAGGIO, F. L.
Effect of an acoustic medium on the dynamic buckling of plates ... 201

DI PRIMA, R. C.
On the torsional oscillations of a solid sphere in a viscous fluid ... 601

DISKS. *See also* ROTORS, VIBRATION
Asymmetrical bending of a cylindrically aeolotropic tapered disk ... 11
Matrix solution for the vibration modes of nonuniform disks ... 109, (D) 481
Thermal stresses in infinite elastic disks ... 527

DI TARANTO, R. A.
Method for determining the flexural effects of statically loaded beams on multiple elastic supports ... 503

DONNELL, L. H.
Effect of imperfections on buckling of thin cylinders under external pressure .. 569

DRUCKER, D. C.
Effect of shear on the plastic bending of beams ... 509
Introduction to plasticity (BR) ... 491

DRYDEN, HUGH L.
Molecular flow of gases (BR) ... 656
Surveys in mechanics: the G. I. Taylor 70th anniversary volume (BR) ... 655

DUNN, M. B.
Stiffness of curved circular tubes with internal pressure ... 247

DURELLI, A. J.
Further work on the general three-dimensional photoelastic problem (D) ... 134
Stress distribution in square plates with hydrostatically loaded central circular holes (AC) ... 326
Studies in dynamic photoelasticity (D) ... 482

DUST SEPARATORS
Boundary layer inside a conical surface due to swirl ... 587

E

EHRICH, F. F.
Matrix solution for the vibration modes of nonuniform disks ... 109

ELASTICITY. *See also* DEFORMATION, PLASTICITY, SOIL MECHANICS, THERMAL STRESSES
Affine transformation for orthotropic plane-stress and plane-strain problems .. 1
Introduction to the theory of aeroelasticity (BR) ... 162
Mathematical structure of the theories of viscoelasticity (BR) ... 163
On the transmission of a concentrated load into the interior of an elastic body .. 541
Résistance des matériaux: théorique et expérimentale, vol. 1 (BR) ... 163
Stress concentration caused by multiple punches and cracks ... 80
Three-dimensional and shell-theory analysis of axially symmetric motions of cylinders ... 563

ELECTRONIC ANALOGY
Electronic analog computer solutions of nonlinear vibratory systems of two degrees of freedom ... 629

ERGIN, E. I.
Transient response of a nonlinear system by a bilinear approximation method 635

ERICKSEN, W. S.
Bending and torsion of circular cylinder cantilever beams of cylindrically aeolotropic material ... 185

ERINGEN, A. C.
New numerical results of the theory of buckling of sandwich cylinders ... 476
On the nonlinear oscillations of viscoelastic plates (AC) ... 325

EVAN-IWANOWSKI, R. M.
Stress solutions for an infinite plate with triangular inlay ... 336

F

FATIGUE OF MATERIALS. *See* METAL FATIGUE

FENG, I-MING
Critical thickness of surface film in boundary lubrication ... 458

FERRI, ANTONIO
Aerodynamics—Selected topics in the light of their historical development (BR) ... 163

FILMS. *See* LUBRICATION

FINDLEY, W. N.
Prediction of creep-deflection and stress distribution in beams from creep in tension (AC) ... 133
